

THIS IS A CHILDREN'S RESCUE MISSION
SAPIR
PUTTING AZ KIDS FIRST

SHIRY SAPIR

Shiry Sapir is an accomplished small business owner, a wife and a loving mother to three children, ages ten, eight and five. After experiencing the school closure and seeing firsthand the current quality of public education with her own kids, Sapir decided to be the change she wanted to see and announced her candidacy to be the next Superintendent of Public Instruction of Arizona in 2021. Her campaign was a true grassroots campaign, with broad support among parents and grandparents who understand the urgency

in rescuing our children from the government's school indoctrination.

Sapir founded and grew Platinum Luxury Real Estate – a successful real estate investment and management company. She has managed hundreds of properties while cultivating relationships with both investors, trades people and tenants.

In addition to operating a business, Sapir served in the Israel Defense Force by providing support to bereaved families, earned an interior design degree in 2004, obtained a pilot's license in 2006, became a general contractor and created Platinum Design and Construction in 2008, and attended culinary school in 2012.

Sapir is passionate about improving the quality of education and striving to create a more perfect future for our children. As a successful business owner, Sapir recognizes the importance of applying common sense and logic to the education system – just as she does every day in her businesses.

The fundamentals of Sapir's campaign were school choice, patriotic education, parental rights, optional masking, and vaccine freedom. Sapir has resolved, that if she cannot make these changes within the system as an elected official, she will reform it for our children from outside of the system.

Shiry empathizes with all Arizona parents who have struggled to make their voices heard. No teacher or school administrator can ever match the love that a parent has for their children especially when it comes to their education and success in life. As a loving mother of 3 children who put her kids in private school when her local public school refused to open during COVID-19. She believe educational freedom and choice are imperative so families direct the upbringing and morality of their children. Her love of children and determination to assure their well-being is a driving force behind her, and she wants to serve her community and families all over Arizona to do exactly that. ■
